

SkySwitch Store Your One-Stop Shop

The SkySwitch Store is an online marketplace for all the equipment you need to support your customers: deskphones, conference phones, headsets, webcams, audio/video bars, keypad devices, paging systems, routers, WiFi access points, gateways, session border controllers, SD-WAN solutions, and more. Most devices are auto-provisioned for you, saving you time. The store also enables you to leverage our buying power with industry suppliers—extending competitive device pricing and saving you money.

The SkySwitch Store offers:

- **Convenience:** Easily see options, stock availability, and prices from all distributors in one location so you can spend less time on sourcing and more time on your customers.
- **Selection:** Distributors include NTS Direct, 888 VoIP, Jenne, and Teledynamics, with additional partners being added, and we have all the top brands, including Yealink, Poly, Grandstream, Fanvil, Snom, and many more.
- **Value:** Take advantage of our purchasing power for competitive pricing.
- **Service:** Auto-provisioning of phones enables quick deployment and drop shipment to your customers.
- **Support:** We support all devices purchased through the SkySwitch Store. Whether you need help troubleshooting or need to return/exchange a device, simply open a support ticket in Dashmanager.

KEY FEATURES

- **Easy Access:** Available via the Store link in Dashmanager
- **Auto-Provisioning:** Phones are ready to use upon delivery—simply go to the order history to choose the MAC address and assign the domain/user
- **Wishlist:** Save frequently purchased items for faster selection and checkout
- **Flexible Payments:** Supports credit cards and ACH
- **Store Account:** Enables you to save payment methods and frequent shipping locations
